REGIONAL MEMORANDUM

No. **1115**, s. 2021

PROMOTING CLIMATE EDUCATION + RAFFLE FOR TEACHERS

To: Schools Division Superintendents
Region and Division DRRM Coordinators
Region and Division Youth Formation Coordinators
Public Elementary and Secondary School Heads
All Others Concerned

1. The ClimateScience Community Philippines (CSCPH) in collaboration with the Department of Education is inviting schools and teacher's climate education in their classes using the free climate education resources for teachers for a chance to win Php 12,500, as part of Climate Waves-School in Action program.
2. The CSCPH is the local community of ClimateScience, a youth-led organization based on UK with communities in 30+ countries, with the mission of promoting solutions-focused climate education through science-based, easy-to-understand, and fun educational materials and programs. This institution recognized the vital role of schools and teachers in reshaping the trajectory of social change, such as solving climate change. Through this, they developed engaging and science-based materials for teachers to allow teachers to integrate climate education in their classes, regardless of the subject they are teaching.
3. The goal is to bring these materials to 1000 schools all over the Philippines while the teachers are requested to provide feedback to help improve the materials and make them more effective tools for teaching climate change to students.
4. In view thereof, all Schools Division Offices are requested to invite schools and teachers within their respective area of responsibility (AOR) to participate on climate education in their classes using the climate education resources. Here is the link to the registration form, which contains more information about the mechanics: <https://bit.ly/ClimateWavesRegistrationForm>.
5. The raffle will happen on December 17, 2021 and January 16, 2022 where two teachers each from Metro Manila, Luzon, Visayas, and Mindanao will win Php12,500 each.
6. For the details, poster to be shared to the schools and teachers, questions and clarifications, refer to the attached communication or contact Ms. Rochelle L. Bata, Founding National Coordinator of ClimateScience Community Philippines through email jas@climatescience.org.

Dear DepEd Division Heads,

Good day and I hope this email finds you well.

On behalf of ClimateScience Community Philippines (CSCPH), I am reaching out to request your assistance in inviting our schools and teachers to integrate climate education in their classes using our free climate education resources for teachers for a chance to win Php12,500, as part of our *Climate Waves – School in Action* program.

CSCPH is the local community of ClimateScience, a youth-led organization based in the UK with communities in 30+ countries, with the mission of promoting solutions-focused climate education through science-based, easy-to-understand, and fun educational materials and programs.

We recognize the vital role schools and teachers play in reshaping the trajectory of social change, such as solving climate change. This is why we have developed engaging and science-based materials for teachers to allow our teachers to integrate climate education in their classes, regardless of the subject they are teaching.

Our goal is to bring these materials to 1000 schools all over the Philippines. We also seek teachers' feedback to help us improve the materials and make them more effective tools for teaching climate change to students.

In this regard, we would like to invite you to join us in our mission by inviting schools and teachers to participate. Here is the link to the registration form, which contains more information about the mechanics: <https://bit.ly/ClimateWavesRegistrationForm>

Our raffle will happen on **December 17 and January 16**, where two teachers each from Metro Manila, Luzon, Visayas, and Mindanao will win Php12,500 each.

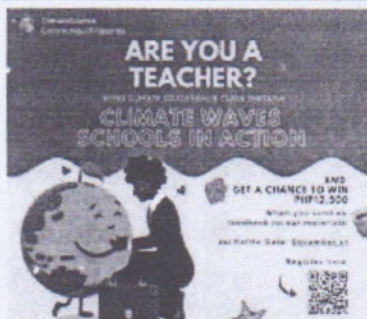

Please also find attached a poster, which you can share with the schools and teachers.

Please feel free to respond to this email or email jas@climatescience.org if you have any questions.

We hope that you'll find our mission of promoting climate education worthwhile and that you'll join us in making our transition to a sustainable future actionable.

Thank you and warmest regards,

Rochelle L. Bata
