PROGRAM DETAILS

Professional Development Program on Assessment and Emerging Literacies with Focus on PISA

I. Rationale

The Department of Education (DepEd) is committed to engage in various national and international system assessments to guide its efforts to address the challenge of improving the quality of basic education. Towards this end, DepEd participated in the Programme for International Student Assessment (PISA) for the first time in its 2018 cycle. The Department likewise participated in the Southeast Asia Primary Learning Metrics (SEA-PLM) 2019 and in the Trends in International Mathematics and Science Study (TIMSS) 2019.

The results of the participation by the Philippines in these international large-scale assessments (ILSA) bring to light the need to accelerate the efforts to improve education quality. One way to contribute to the improvement of quality of basic education is to enhance the alignment of classroom assessment with ILSAs such as PISA. Studies have shown that proper alignment between formative assessments and subsequent summative assessment is crucial in effective learning and assessment quality. For instance, Gulikers et al. (2013) submit that formative assessments should “change along with summative assessment innovations,” highlighting that teachers’ conceptions must be addressed to ensure the development of formative assessment practices that are aligned to such innovations. Further, according to Care (2018), “It is essential that there is strong alignment, not only between curriculum, assessment and pedagogy, but also across the different assessment levels - from classroom to national system - if stated learning goals and the educational philosophy of the country are to be realised.”

This professional development program, entitled Professional Development Program on Assessment and Emerging Literacies with focus on PISA, will thus aim to improve teachers’ assessment literacy and content knowledge, which should help them align their classroom practice with the emerging literacies measured by international assessments. The ultimate goal is for such alignment to translate to the improvement of the Reading, Math, and Science literacy of Junior High School Students.

II. Program Description

The Professional Development Program on Assessments and Emerging Literacies with focus on PISA aims to improve teachers’ assessment literacy and content knowledge in order to develop the Reading, Math, and Science literacy of Junior High School Students.

Enabling objectives include the following:

- Improve teachers’ basic assessment literacy
- Introduce emerging literacies in Math, Science, and Reading

- Integrate emerging international directions in classroom assessment practice and interventions
- Assess teachers' content knowledge in Reading, Math, and Science in order to inform the direction of future cycles of the PD

The content of this training program covers the following Professional Development Priorities of the National Educators Academy of the Philippines (NEAP): Philippine Professional Standards for Teachers (PPST) Strands 1.5, 3.1, 4.1, 4.2, 4.5, 5.1, and 5.2.

III. Target Participants and Indicative Schedule

The program aims to cater to Grade 8 and 9 English, Science, and Math teachers in the 9,344 public junior high schools nationwide.

The program shall be implemented from September 2021 to March 2022.

IV. Component Courses

Course Title	Brief Description	Topics
Enhancement of Teachers' Assessment Competencies	This course introduces the assessment competencies that teachers are expected to be equipped with based on the national and international standards. It consists of three parts: (1) Assessment Competencies for Teachers, (2) Building Assessment Competence, and (3) Feedback to Inform Learning. The course starts with pre-assessment of the participants' competencies. The teachers will be able to identify their strengths and weaknesses that could serve as their basis in improving their assessment practices. Moreover, this course provides a venue to build the teacher's competence in terms of assessment purposes, planning, evidence collection, interpretation of assessment evidence, use of assessment interpretation, evaluation of assessment processes, and feedback giving to improve student performance.	<p>A. ENDORSEMENT OF PARTICIPANTS (DIVISION LEVEL)

The image shows a screenshot of a Microsoft Word document. At the top, the title bar reads "Tawi-tawi Pre-registration of Participants". The menu bar includes "File", "Edit", "View", "Insert", "Format", "Data", "Tools", and "Help". The toolbar contains various icons for text formatting and editing. The main content area features a table with a dark, almost black header row. The header row contains several columns, but the text within them is illegible due to the high contrast. Below the header, the table body is mostly empty, with some faint vertical lines indicating column boundaries. A small rectangular box is visible in the right-hand side of the table area. At the bottom of the page, there is a small status bar with the text "Microsoft Word - Tawi-tawi Pre-registration of Participants".
